RPI Warranty

Rotary Products Inc. guarantees its products to be free from defects in workmanship or material for a period of one year from date of purchase.

This guarantee covers items such as, but not limited to, cracked or twisted wood components on seals or shelters, defective stitching on seals or shelters, and PVC strips breaking due to exposure to cold weather.

This guarantee does not cover damage due to over-compression of seals caused by inadequate bumper projection or by non-tapered seals used on sloped approaches. Six inches of compression is maximum. Also not covered is material on seals or shelters being cut, torn, or worn out regardless of time in service.

A product suspected to be defective workmanship or material by a Rotary Products' dealer must first be authorized for return to the factory.

Rotary Products will pay the freight to return the products and if the product is found to be defective will repair or replace the product at our option and pay the return freight. Rotary Products' liability will be limited to those stated above and no other expenses will be covered.
